Muzejski dokumentacijski centar

The experience of the Museum Documentation Centre (MDC) in the development of a digital museum platform: we want our website to bring the Croatian museum community to life online

Lada Dražin -Trbuljak, museum advicer Museum Documentation Centre, Zagreb, Croatia contact: Idrazin@mdc.hr

4th MUZEUM & DIGIT 2016 conference, Hungarian National Museum, 23-24th November 2016

What is MDC?

_MDC is a public institution founded in 1955

_the central point of documentation, information and communications activities (INDOK) of the Croatian museum community

_the coordinator of the System (Network) of Museums

_the site for the promotion of Croatian museums at home and abroad

_the place of gathering of museum professionals and for sharing the knowledge

_a project for the computerisation of the work of museums in Croatia

_the project of computerisation started in 1980's, software MODES (MDA)

short history

_the implementation of systematic computerisation was ensured in 2004 by the Ministry of Culture when it acquired the M++ software produced by Link2 (developed and upgraded since 1997)

today

_MDC was given the role of coordination and expert advice in installing, maintaining and monitoring the treatment of museum holdings with the aim of improving the computer cataloguing of museum objects

_by the end of 2016 the M++ software was installed in 158 Croatian museums

_MDC continue to coordinate and advice in the installation of software, basic adjustment, documentation consulting and education through workshops and seminars of professional staff

ART COLLECTION Objects from damaged collection:

_projects for tracking the digital museum heritage

Dizajn i izrada: NOVENA

online

projects were developed in several parallel directions:

_the project Museums of Croatia on the Internet - 33 museum institutions have been presented from 1996 until 2008

_we started with creating online collections (Donation of Zagreb city collections, in 2002)

_continued with monitoring of systematic online presentations of digitised museum collections

_organising manifestation which promote multimedia and web projects (MUVI lab from this year, 2016)

Donations to the city of Zagreb online

Muzej betinske drvene brodogradnje

Izložbe online

Pasjetili smo

Muzej betinske drvene brodogradnje

GODINA 2016.

Muzej betinske drvene brodogradnje jedinstven je u Hrvatskoj zbog svoje teme, tradicionalne izgradnje drvenih brodica na Jatinsko jedro" . Prezentirana su brodograditeljska znanja, alati i etnografski predmeti koji opisuju svakodnevni život Betine i otoka Murtera. Postav prikazuje svadbene običale, odlazak na prekomorske posiede, riberenie i polioprivredu. Na 2. Katu sjeveroistočnog díjela zgrade prezentirani su alati za ribolov, a u multimedijalnoj simulaciji puteva daje se naglasak na važnost brodova za svakodnevni život otočana. Sieverozapadni dio zgrade opisuje izradu drvenih brodova. Tu je prezentirana brodograditeljska radionica s alatima za grubu i finu obradu drva. Uz trodimerujonalne predmete muzejski postav nudi audio-vizualne snimke betinskih kalafata i multimedialne igre na temu drvene brodogradnje.

TRAILER MEÐUNARODNOG PROJEKTA "ANTOLOGIJE KRIJUMČARENJA/SMUGGLING ANTHOLOGIES".

Trailer međunarodnog projekta "Antologije krijumčarenja/Smuggling Anthologies". snimljen za potrebe promocije prve faze projekta u Muzeju moderne i suvremene umjetnosti, Rijeka, 22.10.- 4.12.2013.

Izazov teme krijumčarenja sastoji se u iznalaženju načina kako o nečem što držimo nezakonitim djelom govoriti i predstaviti u muzejskom kontekstu. Krijumčarenje se nametnulo kao zanimljivo polazište muzeografske obrade i predstavljanja teme ilegalnog kao muzejski legitiman sadržaj.

Kratki najavni film snimljen je u trenutku kad su u muzej prispjela tek prva tri rada primljena na javnom pozivu za prijedloge radova. Potaknuti željom da uoči otvorenja projekta pojačamo promociju projektu, postavili smo zadatak da naprave najavu za muzejskim pripravnicama koje su asistirale na projektu, postavili smo zadatak da naprave najavu za muzejski web i blog. Suočene s oskudnim brojem pristiglih radova izložbe, zadatku su doskočile izsāvši na gradsku tržnicu, snimajući iz ruke živi materijal iz svakodnevice.

Film je prikazan na MUVI 05: muzeji-video-film/2014.

Rezultat je video koji u brzom ritmu spotova prikazuje prizore s ulice, tržnice, a potom i izložbenog prostora u kojem su zetekle netom raspakirane muzejske izloške. Isprepleten s isječcima iz dokumentarnog materijala iz prijavnica s javnog poziva, uradak je u samo 19 sekundi iz 'nevidljivog' i sadržajno nejasnog materijala uspio prenijeti ideju projekta.

http://www.mmsu.hr/Default.aspx?sec=111 http://smugglinganthologies.wordpress.com/

Film će biti prikazan na MUVI 05: muzeji-vidoe-film.

O časopisu

Informatica Museologica jedini je muzeološki časopis u Hrvatskoj koji kontinujrano izlazi od 1970. godine i prati muzejsku djelatnost, odražava ulogu i vizije muzejske zajednice i glas je muzealaca koji danas oblikuju raznoliki suvremeni muzejski i kulturni kontekst. Cili nam je da časopis postane otvoreni forum za iznošenje različitih znanja, iskustava, koncepcija i suvremenih razmišljanja te da potiče različite oblike stručnih i znanstvenih istraživanja u muzejima. Taj stručni časopis sadržajem obuhvaća aktualne teme iz muzejske teorije i prakse, priloge, istraživanja, recenzije izložaba, recenzije muzejskih publikacija, prikaze sa skupova te informacije o tuzemnim i inozemnim iskustvima. Stalne su rubrike časopisa: Tema broja, Riječ je o Iz muzejske teorije i prakse, Pogledi, iskustva, događaji ..., Kongresi, simpoziji, ICOM, Kolekcionari, Zaštita, Info. Časopis je namijenjen muzealcima, studentima, kolekcionarima te svim zainteresiranima čitateljima. Osim stručnjaka MDCa, u kreiranju časopisa sudjeluju brojni suradnici iz Hrvatske i inozemstva, a dio tekstova prenosimo i iz inozemnih muzejskih časopisa. Izlazi dva puta u godini u nakladi od 600 primjeraka, na hrvatskom jeziku, sa sažecima tekstova na engleskome.
